Summary

I am a skilled professional with expertise in web development, digital marketing, and graphic design. With a strong background in building user-friendly websites, implementing effective marketing strategies, and creating visually appealing graphics, I offer a versatile skill set to enhance both online presence and brand identity. I am passionate about ever-aging technology and creative solutions to help businesses grow and succeed in the digital landscape.

Experience

- 11/2023 - Current
Lead Graphic Designer & Social Media Manager, Fast Home Tuition Service
 - Designed logos, info-graphics, and marketing materials for clients, resulting in enhanced brand identity and consistent visual messaging across platforms.
 - Led social media content creation, including static posts, animations, and video content, resulting in a 25% increase in follower engagement.
 - Worked with small businesses and startups to create full branding packages, including business cards, brochures, and social media banners.
 - Designed visually appealing graphics for paid ads, improving the click-through rate by 20% across campaigns.
 - Conducted A/B testing on social media content, improving overall performance and engagement through refined design strategies.
- 10/2022 - 10/2023
Junior Web Developer, Xtreme Software Services Pvt Ltd
 - Assisted in developing and maintaining websites for a variety of clients, primarily using HTML, CSS, JavaScript.
 - Worked closely with senior developers to debug code and ensure website functionality across all browsers and devices.
 - Participated in the redesign of a large e-commerce site, improving loading speed and overall user experience.
- 06/2022 - 09/2022
HTML/CSS Intern, Khyber Coded
 - Assisted senior developers in building HTML5-based web pages for various client projects, focusing on layout and structure.
 - Used HTML5 forms and validation techniques to enhance the user experience on contact forms and sign-up pages.
 - Developed HTML prototypes for client presentations, demonstrating layout and design functionality before full development.
 - Learned and applied best practices for writing semantic HTML, improving website accessibility for users with disabilities.
 - Worked closely with designers to implement design feedback, ensuring that HTML/CSS code met client expectations.
